

SONORAN CORRIDOR STUDY

TIER 1 ENVIRONMENTAL IMPACT STATEMENT YOUR INPUT IS NEEDED!

PUBLIC INFORMATION MEETING

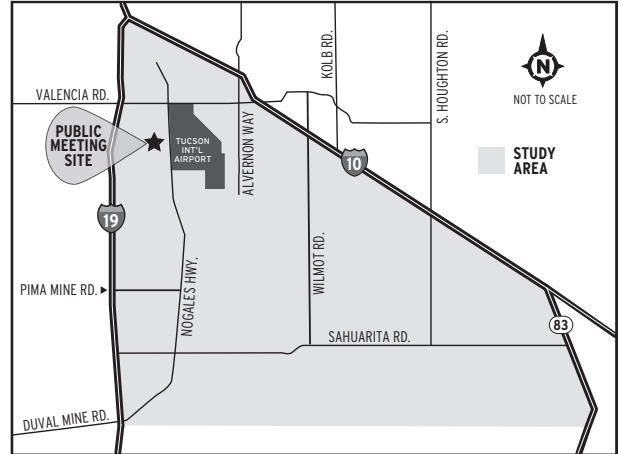

The Federal Highway Administration (FHWA) and the Arizona Department of Transportation (ADOT) invite you to attend a public information meeting as part of the Sonoran Corridor Tier 1 Environmental Impact Statement (EIS) study. The proposed Sonoran Corridor is congressionally designated as a high-priority, high-capacity corridor that would connect Interstate 10 to Interstate 19 south of the Tucson International Airport.

This public information meeting will provide the opportunity for the public and stakeholders to learn about and provide comment on the need and purpose for this study, a comprehensive set of corridor alternatives and a refined list of corridor alternatives, as well as the evaluation methodology used to assess them. Public input will help the study team further evaluate potential corridors in this three-year study designed to develop a "preferred alternative corridor" for further detailed examination in a subsequent study.

WHAT IS THE SONORAN CORRIDOR?

The Sonoran Corridor is envisioned as a potential transportation corridor that would enhance the movement of people and freight, and facilitate regional connectivity, trade, communications and technology.
